Guide Price (where a fixed price package is not offered)

- Following your initial consultation, you will be provided with a Guide Price setting out the anticipated cost for your care. - Whilst we will make every effort to include all items, the total cost may depend on a number of factors, including any pre-existing conditions you may have.

- The amount of the deposit will be calculated based on the information provided by your Consultant. The sum will be calculated on the planned treatment and will include, where known, the planned treatment, length of stay and anticipated other services including prosthesis, implants and high value consumables, therapy support and typical histopathology.
