

Statement of Purpose, King Edward VII's Hospital Sister Agnes

This is the Statement of Purpose for King Edward VII's Hospital Sister Agnes as required by the Care Quality Commission (Registration) and (Additional Functions) and Health and Social Care Act 2008 (Regulated Activities) (Amendment) Regulations 2012. A statement of purpose for a hospital describes what we do, where we do it and who we do it for. It must be up to date and include a prescribed set of information which is detailed here:

<https://www.cqc.org.uk/guidance-providers/registration-notifications/statement-purpose>

The King Edward VII's Hospital Sister Agnes operates from a single location, King Edward VII's Hospital, which is a 52 bed independent charitable hospital in central London with a 4 bed critical care unit, four operating theatres, diagnostic imaging and outpatient services. It provides its regulated activities to adult patients aged 18- 65 and 65+ years.

The Hospital employs 359 members of staff.

The charity provides support to veterans through subsidised treatment and the Hospital Pain Management Programme

Our Values

Our Values are:

Professionalism – We encourage our teams to be the best they can and meet the highest standards through:

- Acting with integrity
- Accountability
- Continued learning

Quality – We will provide excellence in everything we do through:

- Innovation
- Listening to and acting on feedback
- Measuring outcomes and informing actions

Respect – We will respect other people's views to ensure an open inclusive working environment through:

- Compassion
- Dignity
- Honesty

Safety – We are committed to providing a safe environment for our patients and colleagues through:

- A learning culture
- Freedom to speak up
- Transparency

Teamwork – We work as a team so we achieve more together by being:

- Collaborative
- Fair
- Open

The Hospital Vision is to be:

The leading private hospital in the UK and to support an increased number of veterans through our charitable work.

Our Mission Statement is:

To consistently deliver the highest standards of personalised patient centred care, in a safe and kind environment, through our exceptional and empowered teams. This will enable us to deliver our charitable works within the veteran community.

Organisational objectives from the hospital strategy 2020-2023

1. Achieve CQC Outstanding through continuous improvement & innovation, while ensuring the patient is at the centre of everything we do.
2. Become renowned for providing outstanding personalised patient centred care in musculoskeletal, women's health, men's health and later life care, underpinned by leading clinical services and wellness and wellbeing initiatives.
3. Continue to strengthen our culture of quality and safety built on transparency and openness, through continual learning and improvement, investing in staff development and acquiring accreditation by the appropriate National bodies.
4. Increase revenue and deliver an EBIT surplus.
5. Deliver improved and expanded facilities via a two phased approach leading to increased beds, critical care, theatre, outpatient and imaging capacity.
6. Develop benchmarked, comprehensive, comparable and reliable measures of care, services and quality experience that will achieve excellence in healthcare outcomes.
7. Ensure that the Hospital is recognised for driving innovation and exploiting new technology to deliver accessible world class health care whilst remaining aligned to our core values.
8. Increase the number of veterans currently supported by the Hospital by 40%.

Our regulated activities

- Treatment of disease, disorder or injury
- Surgical Procedures
- Diagnostic and screening procedures
- Family Planning

King Edward VII's Hospital provides its regulated activities to adult patients 18-65 and 65+years.

Surgical Procedures

The hospital has four operating theatres and provides elective surgical procedures to patients in the following specialities:

Urology	Gynaecology	Colorectal
Orthopaedics	Ophthalmology	Bariatric
Breast surgery	Plastic surgery	ENT

Treatment of Disease, disorder or injury

The hospital also provides treatment of disease, disorder or injury to adult medical patients including those undergoing endoscopy and End of Life Care. The hospital can also provide Critical Care up to CCU level 3 if required.

The hospital has an outpatient centre for consultations, minor procedures and phlebotomy.

Diagnostic Imaging

King Edward VII's Hospital provides diagnostic imaging to adults including x-rays, CT and MRI for both inpatient and outpatients

Family Planning Services

The hospital implants intrauterine devices during gynaecological procedures usually for menstrual disorders in line with NICE guidance.
